## Technical information:

**Composition:** highest quality polymer modified concrete , lightweight aggregates and iron-oxide pigments.

**Weight:** 1 to 7 pounds per square foot (depending on the model).

ARTEK STONE products are designed to satisfy and surpass the Building code requirements.

**Resistance:** to compression (norm ASTM C 39), water absorption (norm ASTM C 642), freezing and thawing cycle (norm ASTM C 666).

**Non flammable:** does not produce smoke or toxic fumes.

### Stone Installation:

ARTEK stones have been conceived for both indoor and outdoor application. Install ARTEK stone on any solid structured wall, simply with the help of Polymer Modified thin-set Mortar , and then finish joints with Premixed Type N mortar. Mortar can be tinted to complement the color of the stone being installed. For more details about the stone installation visit us at [www.artekstone.com](http://www.artekstone.com).

Used for Pyramids and Castles, later adapted for cathedrals and aristocratic mansions, stones have always been admired for their noble character.

Inspired by the volcanic origin of ancient rocks, the Canadian company ARTEK STONE has developed a revolutionary technology capable of replicating the beauty, the exact colors, textures and visual details of natural rocks.

BEAUTIFUL and UNIQUE

Our artisans have chosen the most attractive forms and textures. Some models they developed won the Price of Excellence at the Montreal International interior Design Show(SIDIM).

SIMPLE and ECONOMICAL

Thin ,light and durable, our stones can be easily manipulated, transported and instal- led both inside and out on any solid wall without any additional support or founda- tion. Those advantages can substantially reduce the final cost of your renovation or construction project.

DURABLE

Our product is manufactured from a highest quality polymer modified concrete, natu- ral lightweight aggregates and all-natural (iron-oxide) pigments which will not fade or deteriorate after many years of use.

DECORATIVE STONE

ARTEK STONE has chosen a combination of diverse textures and colors to be perfectly compatible with other materials; be it wood, glass, metal, brick or stone. The wide variety of our products will allow you to create the perfect atmosphere for interior decoration, a traditional or contemporary look for your home, a landscape arrangement or a commercial application.
